About Us

Founded in 1990, Cuttle Construction is a business with over 30 years' experience working as a main contractor in London and the home counties, working with public, private, and corporate clients. A proven track record in commercial, high end residential projects, new build, refurbishments and extensive experience on listed period buildings.

Every client/partner and their individual project is very important to us. We pride ourselves on our strong client/partner relationships, which results in repeat business time and time again.

Our people with their knowledge and experience are key to our success, in addition to our enduring relationships with our professional partners, sub-contractors, suppliers and specialists.

Everything we do is based on our values of service, quality, sustainability, which is delivered with integrity, honesty and as a united delivery team.
