About Us

Founded in 1990, Cuttle Construction is a business with over 30 years' experience working as a main contractor in London and the home counties, working with public, private, and corporate clients. A proven track record in commercial, high end residential projects, new build, refurbishments and extensive experience on listed period buildings from the Georgian, Victorian, and Edwardian era.

Every client/partner and their individual project is very important to us. We pride ourselves on our strong client/partner relationships, which results in repeat business time and time again.

Our people with their knowledge and experience are key to our success, in addition to our enduring relationships with our professional partners, sub-contractors, suppliers and specialists.

Everything we do is based on our values of service, quality, sustainability, which is delivered with integrity, honesty and as a united delivery team.

Warrington Gardens

Warwick Avenue, London

1 Warrington Gardens is a detached residential apartment block spanning over 6 storeys above ground level. This project consisted of extensive render repairs to the elevations, joinery repairs to the windows and doors, glazing replacement, roofing repairs to the main roof, mansard, and box gutters. The whole block was also fully decorated.

Bespoke CM Ltd

Greencroft Gardens
Hampstead, London

Classic example of Victorian architecture in Hampstead. Our scope of works included a complete new steel frame structure throughout, replacement of all timber windows to match existing heritage style, full repointing of the front elevation, mansard roof replacement including the addition of an extra dormer, new finishes to mansard, dormers and crown roof, and full redecorations to all elevations.
